Mishawaka Democratic Mayoralty Candidate Wins Over Gaylor by 20 Votes.

portion of these were republican votes.

It only one case did either candidate make a gain over the count of the Mishawaka election boards, and that one instance was in the fifth ward, where Dodge received 420 votes, whereas in the first count he was credited with only 419. In the first ward. Dodge lost over the ward 12 votes, in the third ward 10 votes, in the fourth ward 10 votes and in the fifth he gained one vote. In the first ward Mayor Gaylor lost 13 votes, in the second ward 10 votes, in the third ward 5 votes, in the fourth war 15 votes and in the fifth ward 10 votes. The total of the Dodge losses by the recount over the Bodge losses by the recount over the original count was 44 and Gay- 5-5-3 SEA RATIO lor's loss was 53.

Count Every Vote. In recounting the votes, every vote cast was counted by the commission irrespective of whether it had been rejected by the local election boards in Mishawaka or not. In many cases ballots which were rejected on the original count in Mishawaka were counted by the commission and ballots counted by the Mishawaka boards were thrown out by the commission. There was no friction, however, in the recount. The members, J. Walter McInerny, democrat, and John Yeagley and Daniel Schurtz, republicans, counted them in as impartial a manner as possible, and though particular decisions at times were adverse to one or the other of the two parties, it was generally agreed upon that it practical to do so. was a satisfactory count.
